

Mirage® Advantage Pop-Up

The World's Only Self-Locking Fiberglass Frame

exhibiting solutions

The Perfect Pop-Up: Mirage® Advantage Display

Self-Locking Fiberglass Frame

Mirage Advantage combines the lightweight durability of a fiberglass frame with the speed of a self-locking frame. Our innovative design brings unmatched durability, quicker installation, even greater weight capacity for showcasing product.

Quick and Easy to Install

Our lightweight, self-locking frame instantly pops up and into place with magnetic connectors. Panels also attach with magnets.

Entice Customers and Prospects

Skyline Genuine Graphics are the absolute highest quality. You'll always look your best with compelling graphics that are built to last.

We produce all of our graphics in-house for the best fit and finish – guaranteed.

Durable frame flexes, won't kink

Mirage Advantage is the only self-locking fiberglass frame. It's strong, durable and lightweight. Best of all, if our flexible frame is impacted, it bounces back without damage – unlike other pop-ups.

Mirage frame and channels are backed with a lifetime warranty!

For easy handling, a 10' Mirage Advantage packs in two lighter weight cases, instead of one bulky, hard-to-manage container.

1 Unique triangulated frame
Frame 'triangulation' prevents warping and panel gaps even on non-level show floors.

2 Polarized channel magnets
Multiple strips of alternating polarization 'snap' panels into perfect alignment.

3 Transporter cases
Specialized compartments protect valuable exhibit components during shipping and storage.

4 Marquee backlit header
Attract attention! Marquee backlit header makes your name and message stand out.

5 Exact-fit panels
Skyline panels – both fabric and graphic – are computer cut to a tolerance of 3/1000 of an inch.

6 Cost-efficient case table
Transform your display cases into a table. You get additional work surface and branding opportunity.

7 Fabric color choices

Fabric panels are available in a variety of colors and are compatible with detachable graphics.

8 Expanded design options

Mirage Advantage works seamlessly with other Skyline systems – expanding design possibilities.

9 Merchandising accessories

A variety of accessories like shelving, counters and flat screens display your products and message.

Mirage® Advantage

Back panels provide a finished look for island applications.

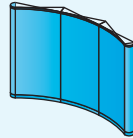

Bubble Panel commands attention with full-panel, backlit graphics.

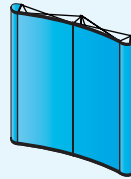

Single units connect seamlessly to create in-line exhibits of 20' or more.
